Service activation

STEP 1

STEP 2

STEP 3

STEP 4

Welcome to the service activation wizard for Panda Security clients. Please complete all the steps to benefit from all the services included in the product.

At the end of the process, we will send an email to the specified address with the information necessary to activate your product.

Choose a country/territory and a language. Make sure you select the right country/territory, as the data required will depend on the country/territory you have selected.

Online service activation

Choose a country/territory and a language for registration

Language:

Country/Territory:

در صفحه بالا زبان را **English** و کشور را **ایران** انتخاب بفرمایید.

Language: **English**

Country: **iran**

Service activation

STEP 1	STEP 2	STEP 3	STEP 4
--------	--------	--------	--------

Have you ever activated the services of another Panda product?

If you have, the system will use the data entered before. However, you will need the client number that you received by email.

NO
